

Water your yard before 10 a.m. or after 6 p.m. from April 1 to October 31.

# *Time of day watering restrictions have begun!*

## **Did you know?**

*For a healthy lawn, experts recommend you water no more than twice a week!*

If you give your lawn one inch of water every five to seven days, the water will sink in and encourage the roots to grow stronger. **Deep and infrequent watering** is key to keeping your lawn healthy and your water costs under control all summer long.

*Dallas Water Utilities is offering free automatic irrigation system check-ups to customers!*

No strings attached! These check-ups can help improve the efficiency of your existing irrigation system and save you water and money.

Visit [SaveDallasWater.com](http://SaveDallasWater.com) or call 214/670-3155 to schedule your check-up.

## **Dallas Water Conservation Ordinance**

- Don't water your yard between 10 a.m. and 6 p.m. from April 1 to October 31.
- Don't water during any form of precipitation.
- Don't allow your sprinkler system to water driveways, sidewalks or streets.
- Don't waste water by allowing runoff onto a street or other drainage area when you're watering.
- Hand watering or the use of soaker hoses are permitted at any time.
- Repair any broken, missing or misdirected sprinkler heads.
- All automatic sprinkler systems are required to have rain and freeze sensors.
- Monitor your total water usage. If you use more than 15,000 gallons a month, you pay a surcharge on the amount above 15,000.

*Violations of these outdoor watering guidelines can result in fines of \$250 to \$2,000 per incident. First offenses will be issued a warning.*
