Healthy lawns with less water

Learn more at a
FREE Lawn Care Seminar

Saturday, January 28 • 9 a.m. - 11:00 a.m.

Come and learn from local experts the ways you can maintain a healthy lawn with less frequent watering. Discover the most effective and earth-friendly way to care for your lawn at Richland College's Performance Hall (12800 Abrams Road, Dallas, TX 75243) on Saturday, January 28 from 9 a.m. - 11:00 a.m. Go to www.richlandcollege.edu for driving directions and a campus map.

John and Amanda Griffin, turf and irrigation specialists with *Smart Outdoor Services*, will teach you how to care for your lawn like an expert. Subjects covered will include basic care for your lawn, common turf problems, how to water most efficiently and much more.

Following the presentation there will be a question and answer session with licensed irrigators on minor sprinkler system repairs. Also, there will be a drawing for a 60-gallon rain barrel donated by *Catch the Rain* and bags of *Green Sense* organic fertilizer donated by *Rohde's Nursery & Nature Store*.

Make a reservation

Space is limited, please register online at SaveDallasWater.com or by calling us at (214) 670-3155.

Seminar sponsored by City of Dallas Water Conservation, City of Dallas Stormwater Management and Richland College.

Please Remember

Dallas is in Stage 1 Water Restrictions

The restrictions apply to automatic sprinklers, hose-end sprinklers, drip irrigation, soaker hoses and hand watering. No watering between 10 a.m. and 6 p.m.
