

Healthy lawns with less water

Learn more at a FREE Lawn Care Seminar

Saturday, February 8 • 9 a.m. - 11:00 a.m.

Come and learn ways you can maintain a healthy lawn with less frequent watering. Discover the most effective and earth-friendly way to care for your lawn at the Texas A&M AgriLife Research & Extension Auditorium (17360 Coit Road, Dallas, TX 75252) on Saturday, February 8 from 9 a.m. - 11:00 a.m. Go to dallas.tamu.edu for driving directions.

Patrick Dickinson, a turf specialist with the Urban Water Program at Texas A&M AgriLife Research in Dallas, will teach you how to care for your lawn like an expert. Subjects covered will include basic care for your lawn, common turf problems, how to water most efficiently and much more.

Also, there will be drawings to win bags of *Green Sense* organic fertilizer donated by *Rohde's Nursery & Nature Store*.

Make a reservation

Space is limited, please register online at SaveDallasWater.com or by calling us at (214) 670-3155.

Seminar sponsored by City of Dallas Water Conservation, City of Dallas Stormwater Management and Texas A&M AgriLife Research.

Please Remember

the Permanent Watering Schedule

The schedule applies to automatic sprinklers and hose- end sprinklers year-round.
Drip irrigation, soaker hoses and hand watering will be allowed any day.

Last Digit of Address	Watering Days Allowed
0, 2, 4, 6 or 8 (even numbers)	Sundays and Thursdays
