## **Who is Dew?**

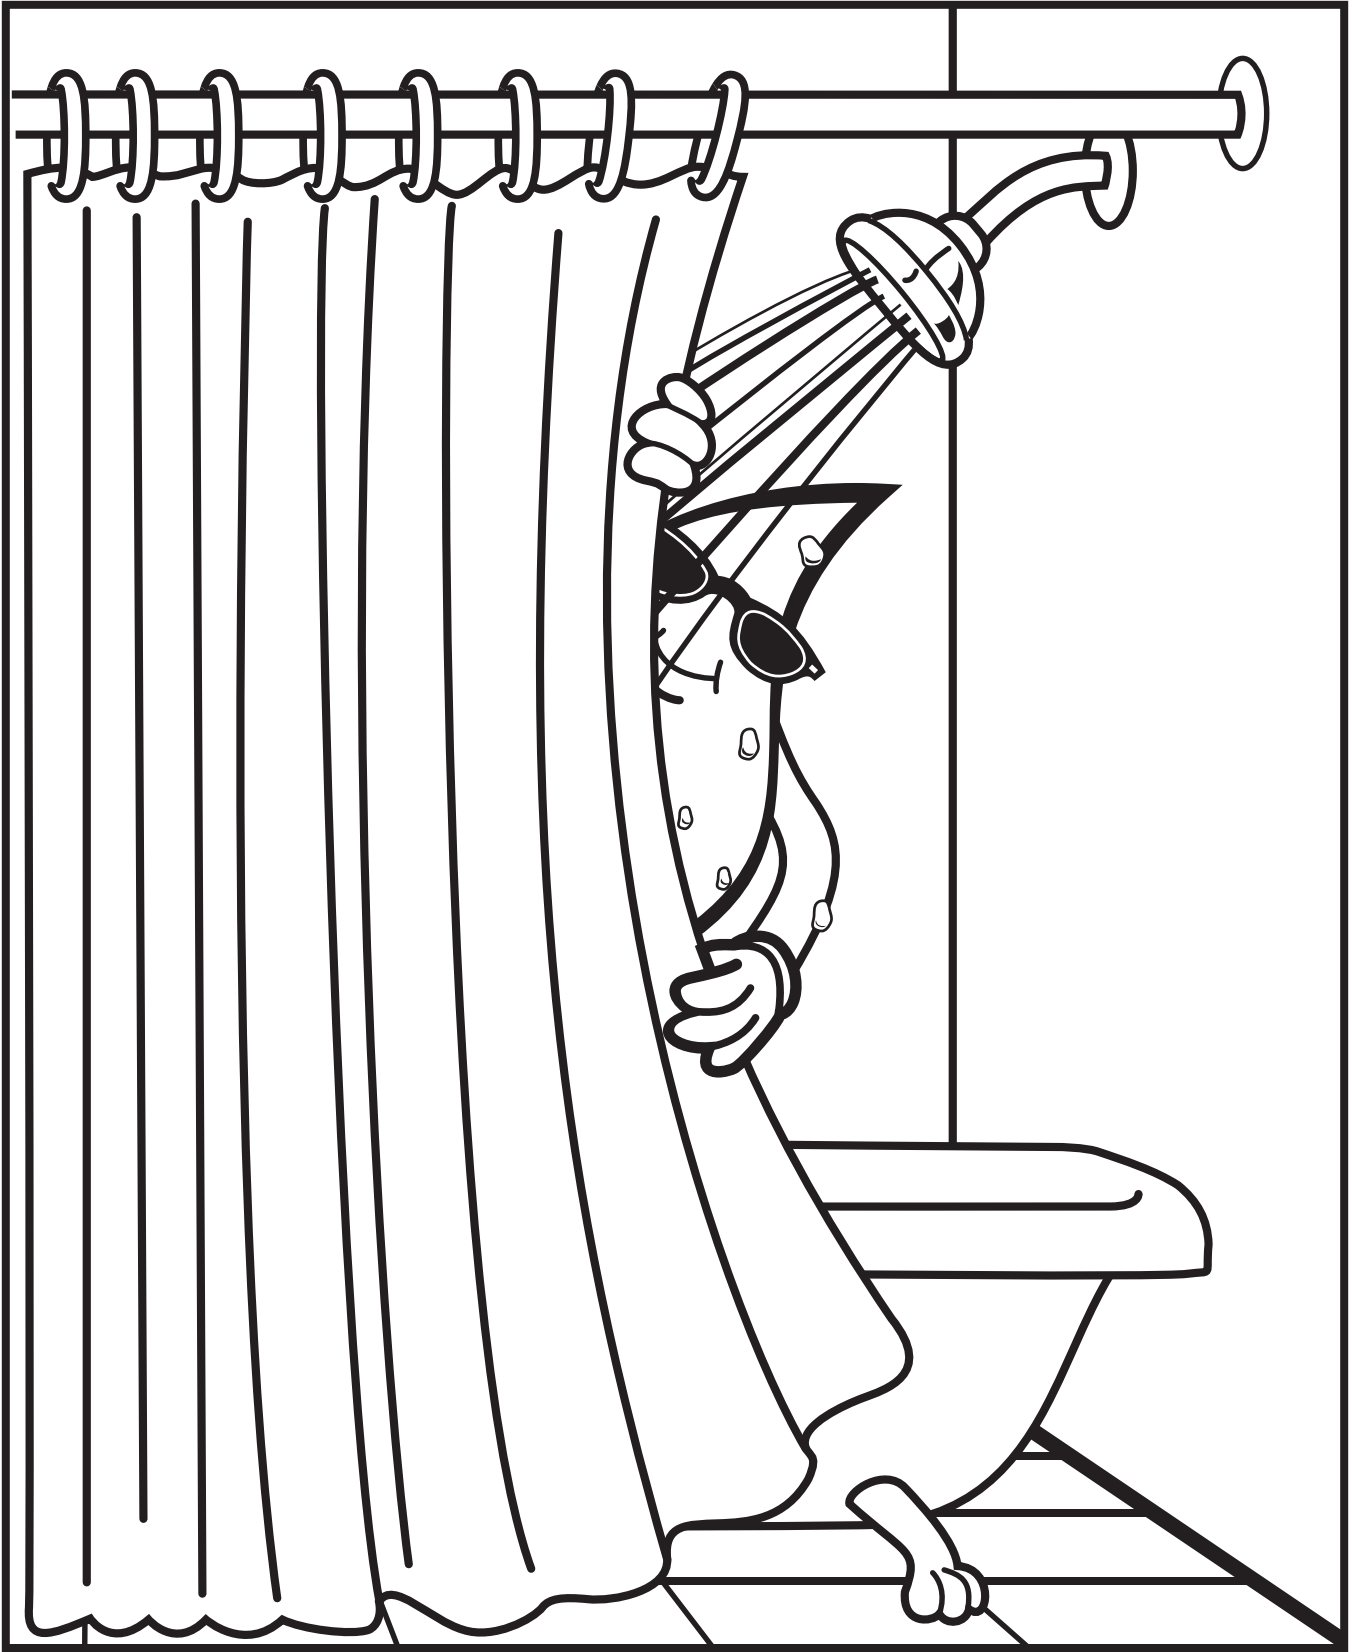

Dew is a drop of water who's been all over. He's been to all four oceans, in rivers, lakes, dishwashers and drains. But Dew loves Dallas and wants to stay here with us for a while. To help him stay means we must save water so Dew doesn't go down the drain again. There are lots of ways to make sure that water isn't wasted. Let's hang out with Dew for a day and see what he's been "dewing" to have fun and save water.

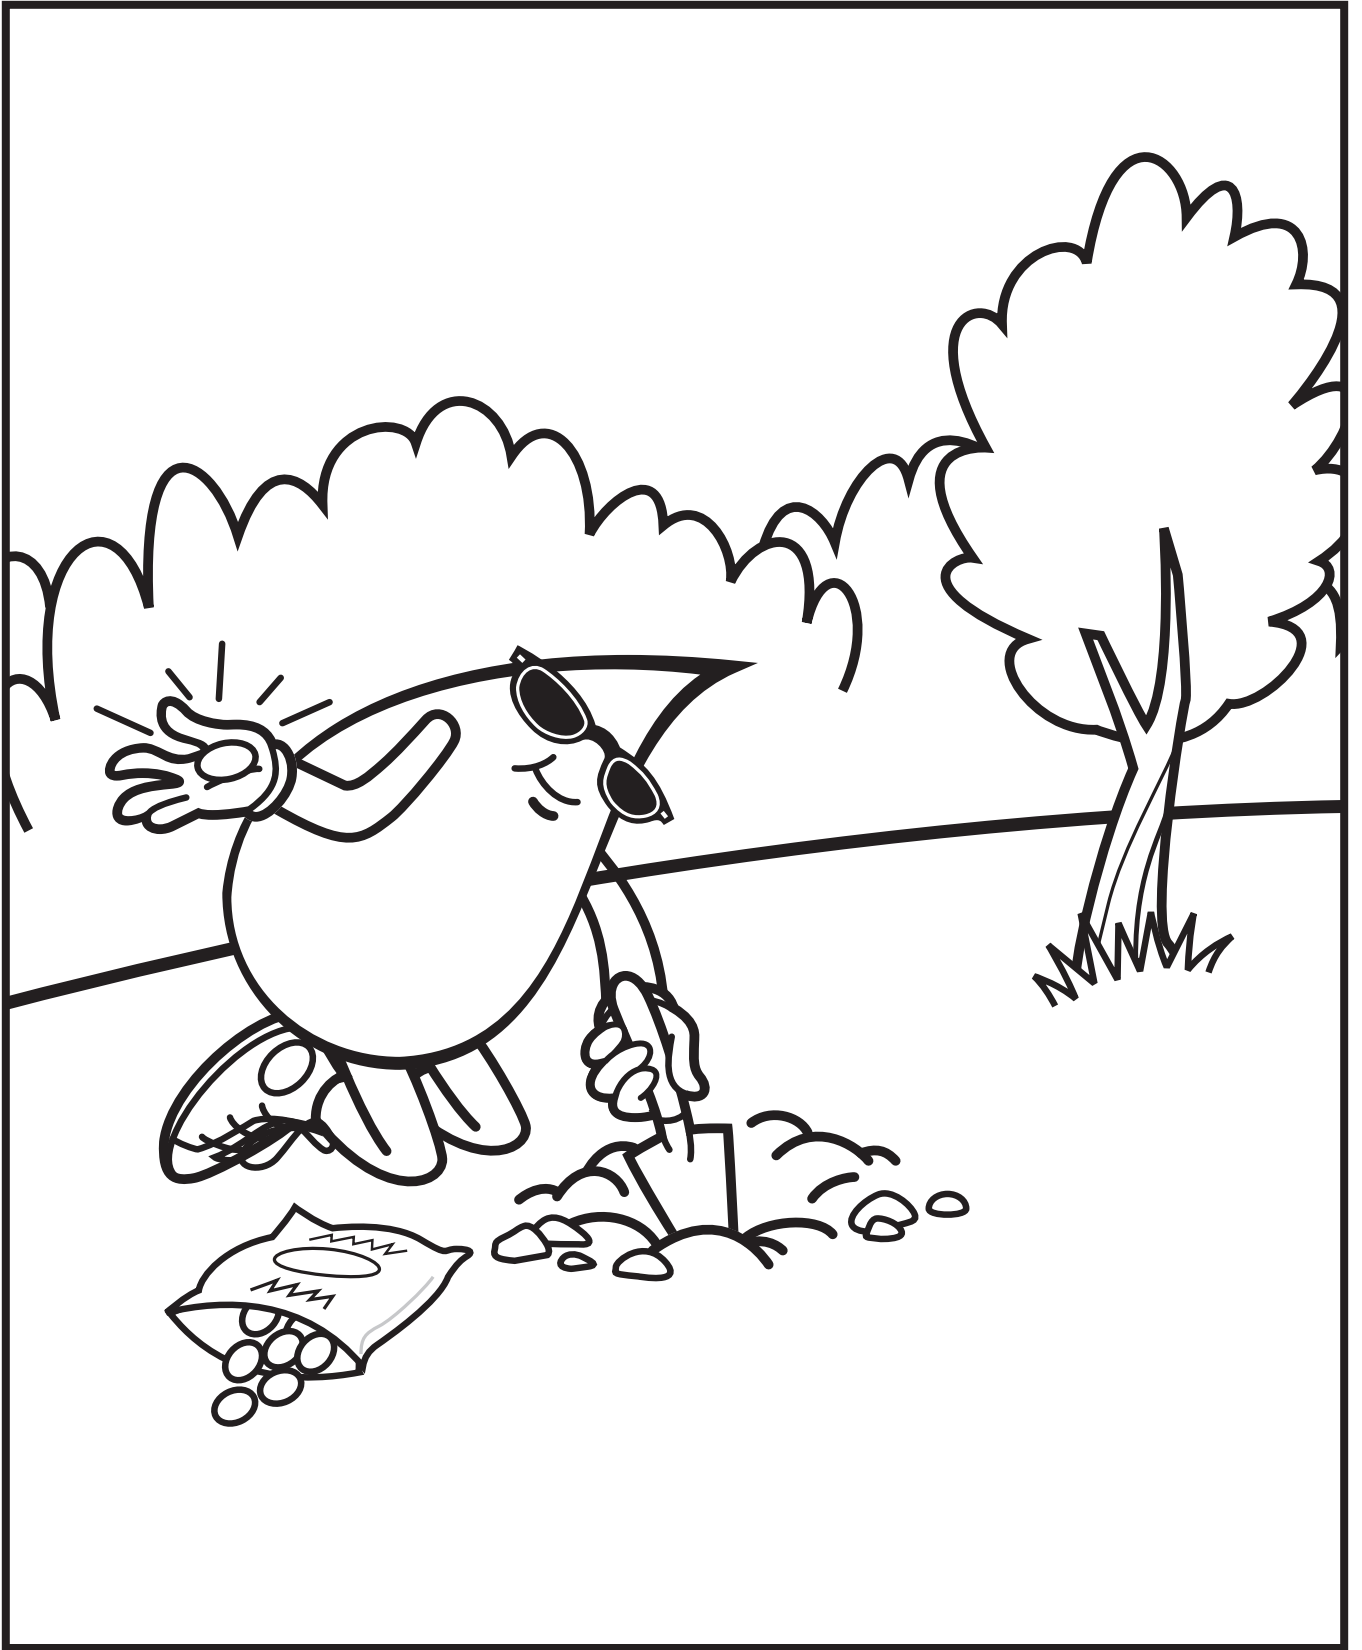

Let's get started on saving water and help Dew stay out of the drain!

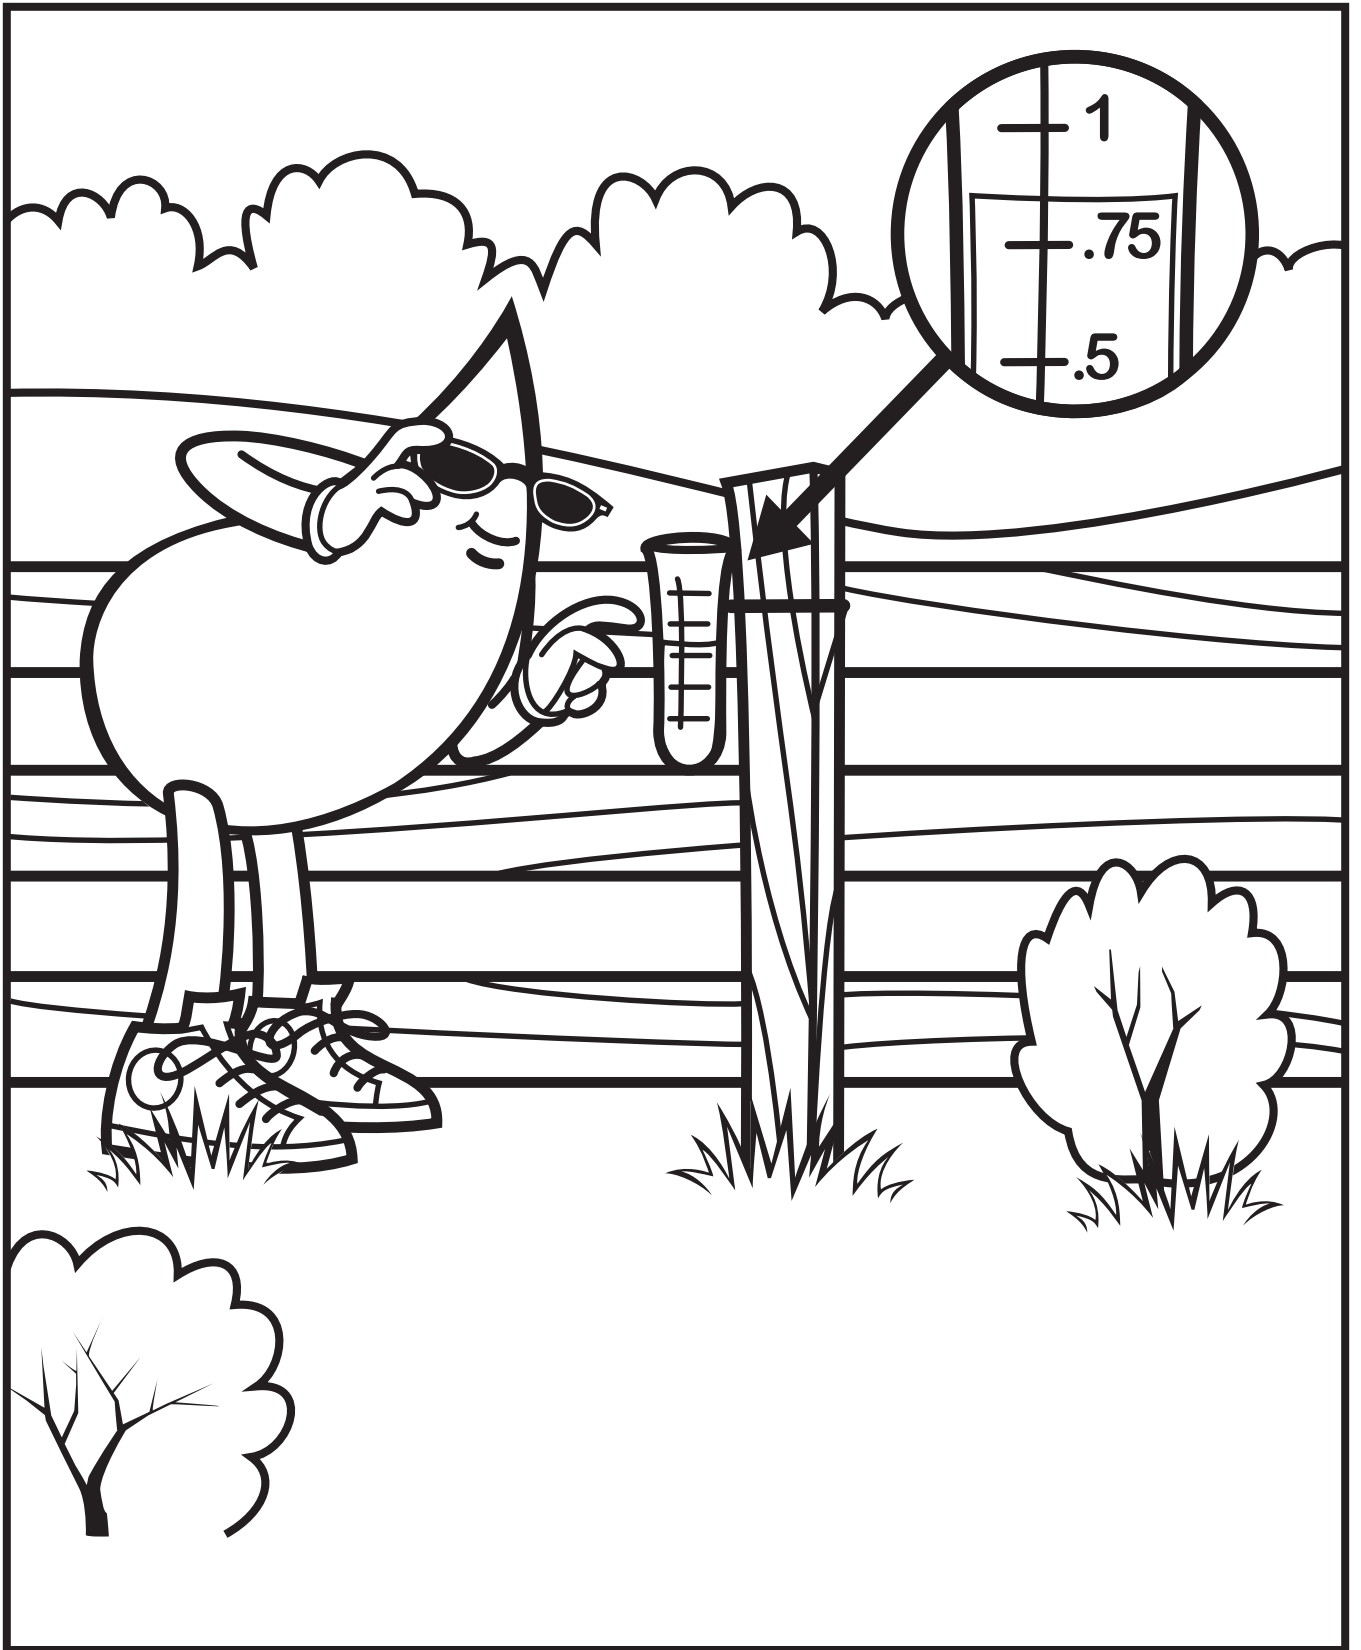

Dew starts the day saving water.  
Turn off the water while you brush your teeth!

Dew takes quick showers to save lots and lots of water.

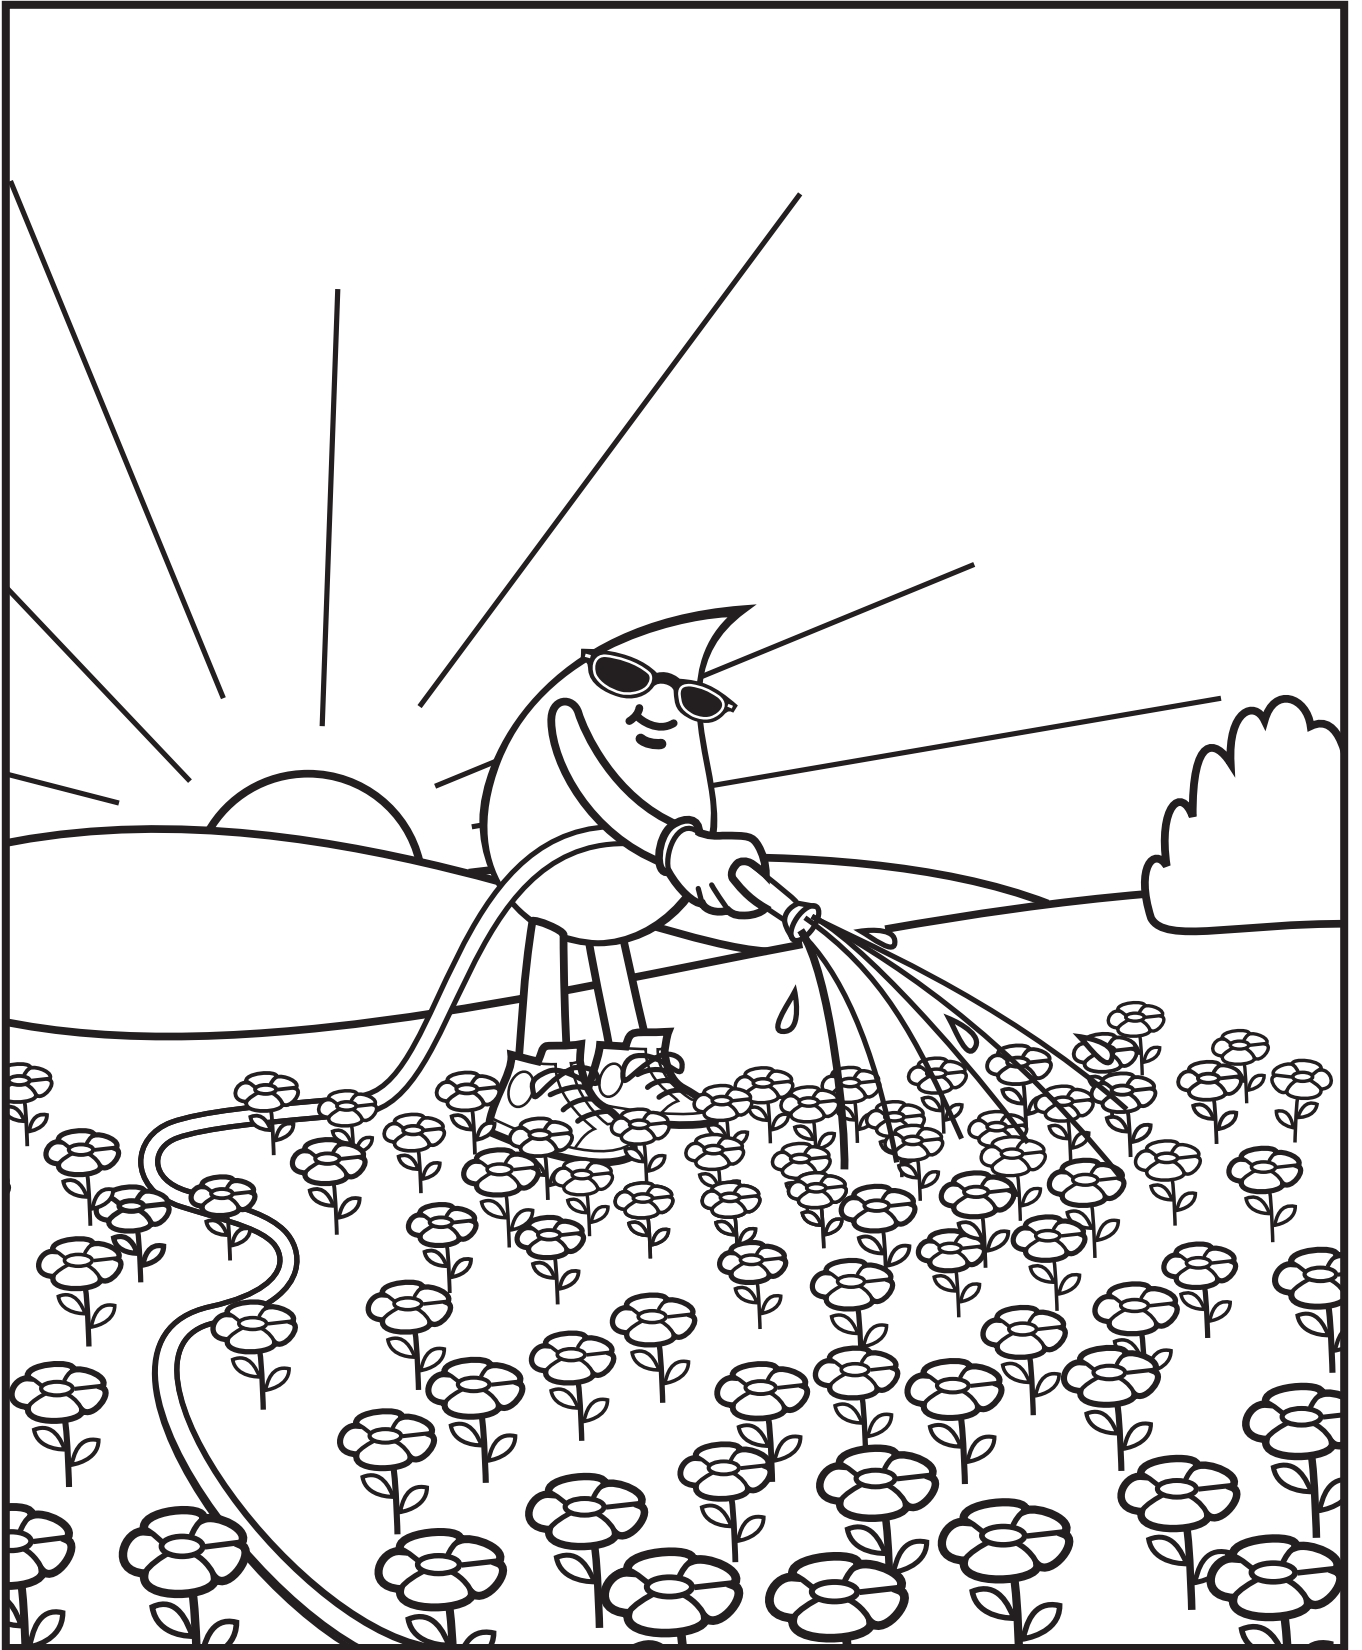

Dew grows plants that don't need a lot of water in his garden!

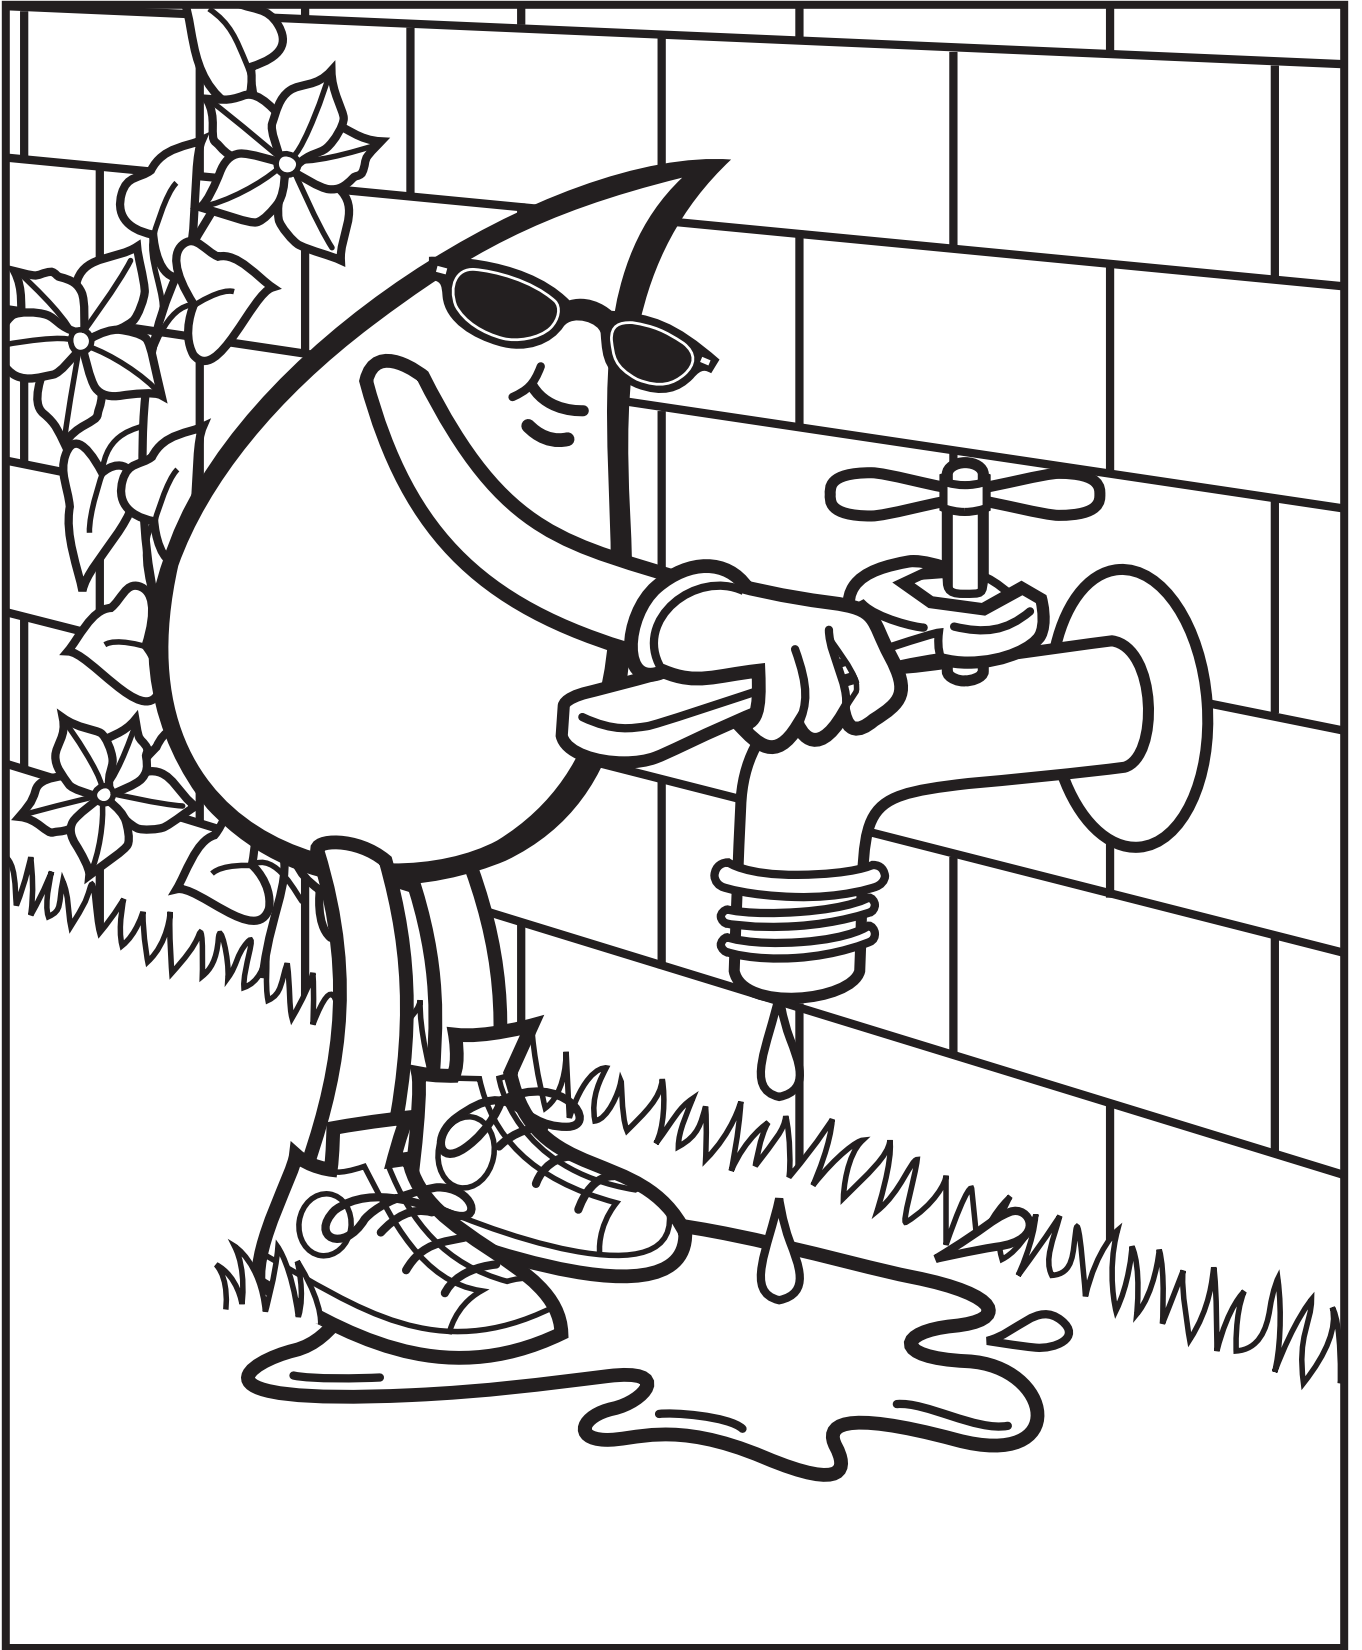

Dew always checks to see how much it has rained before watering his garden.

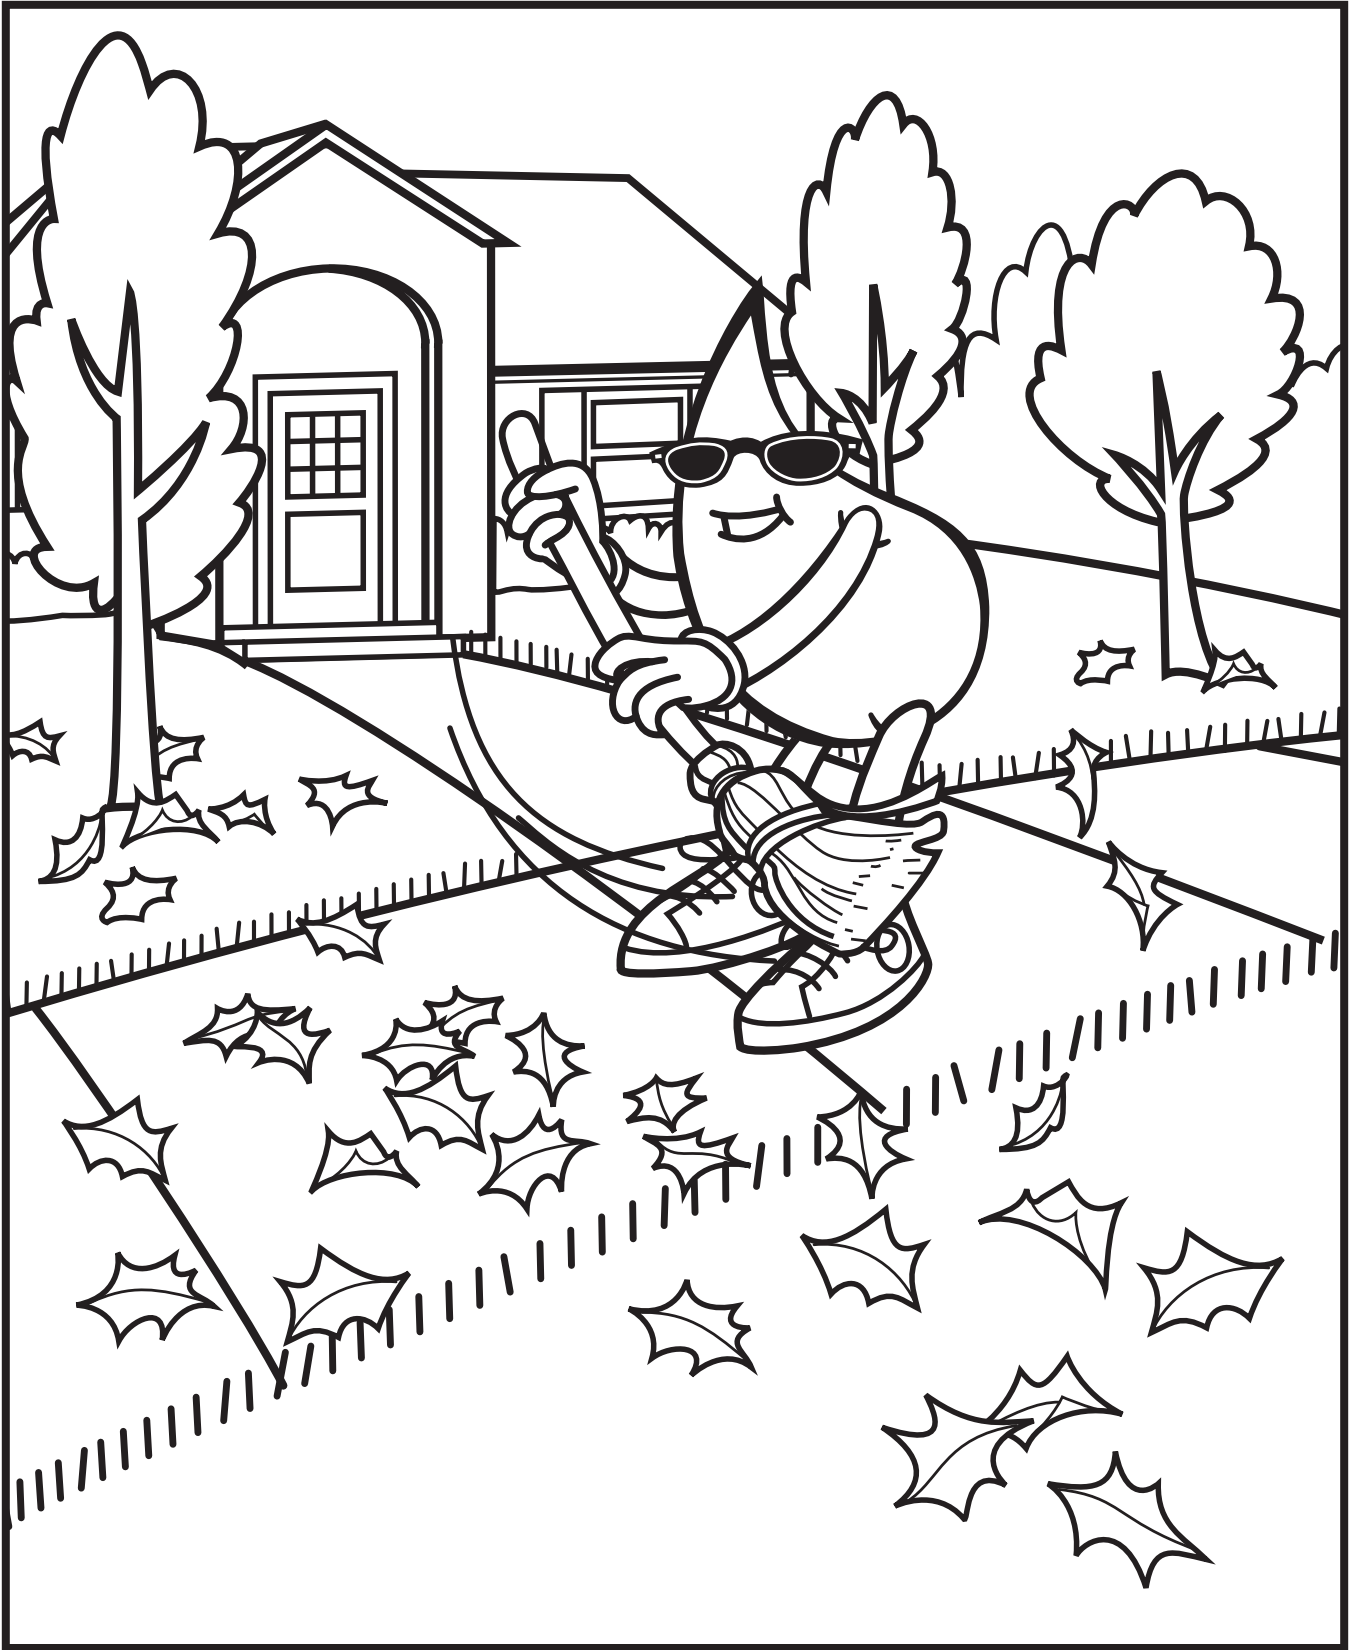

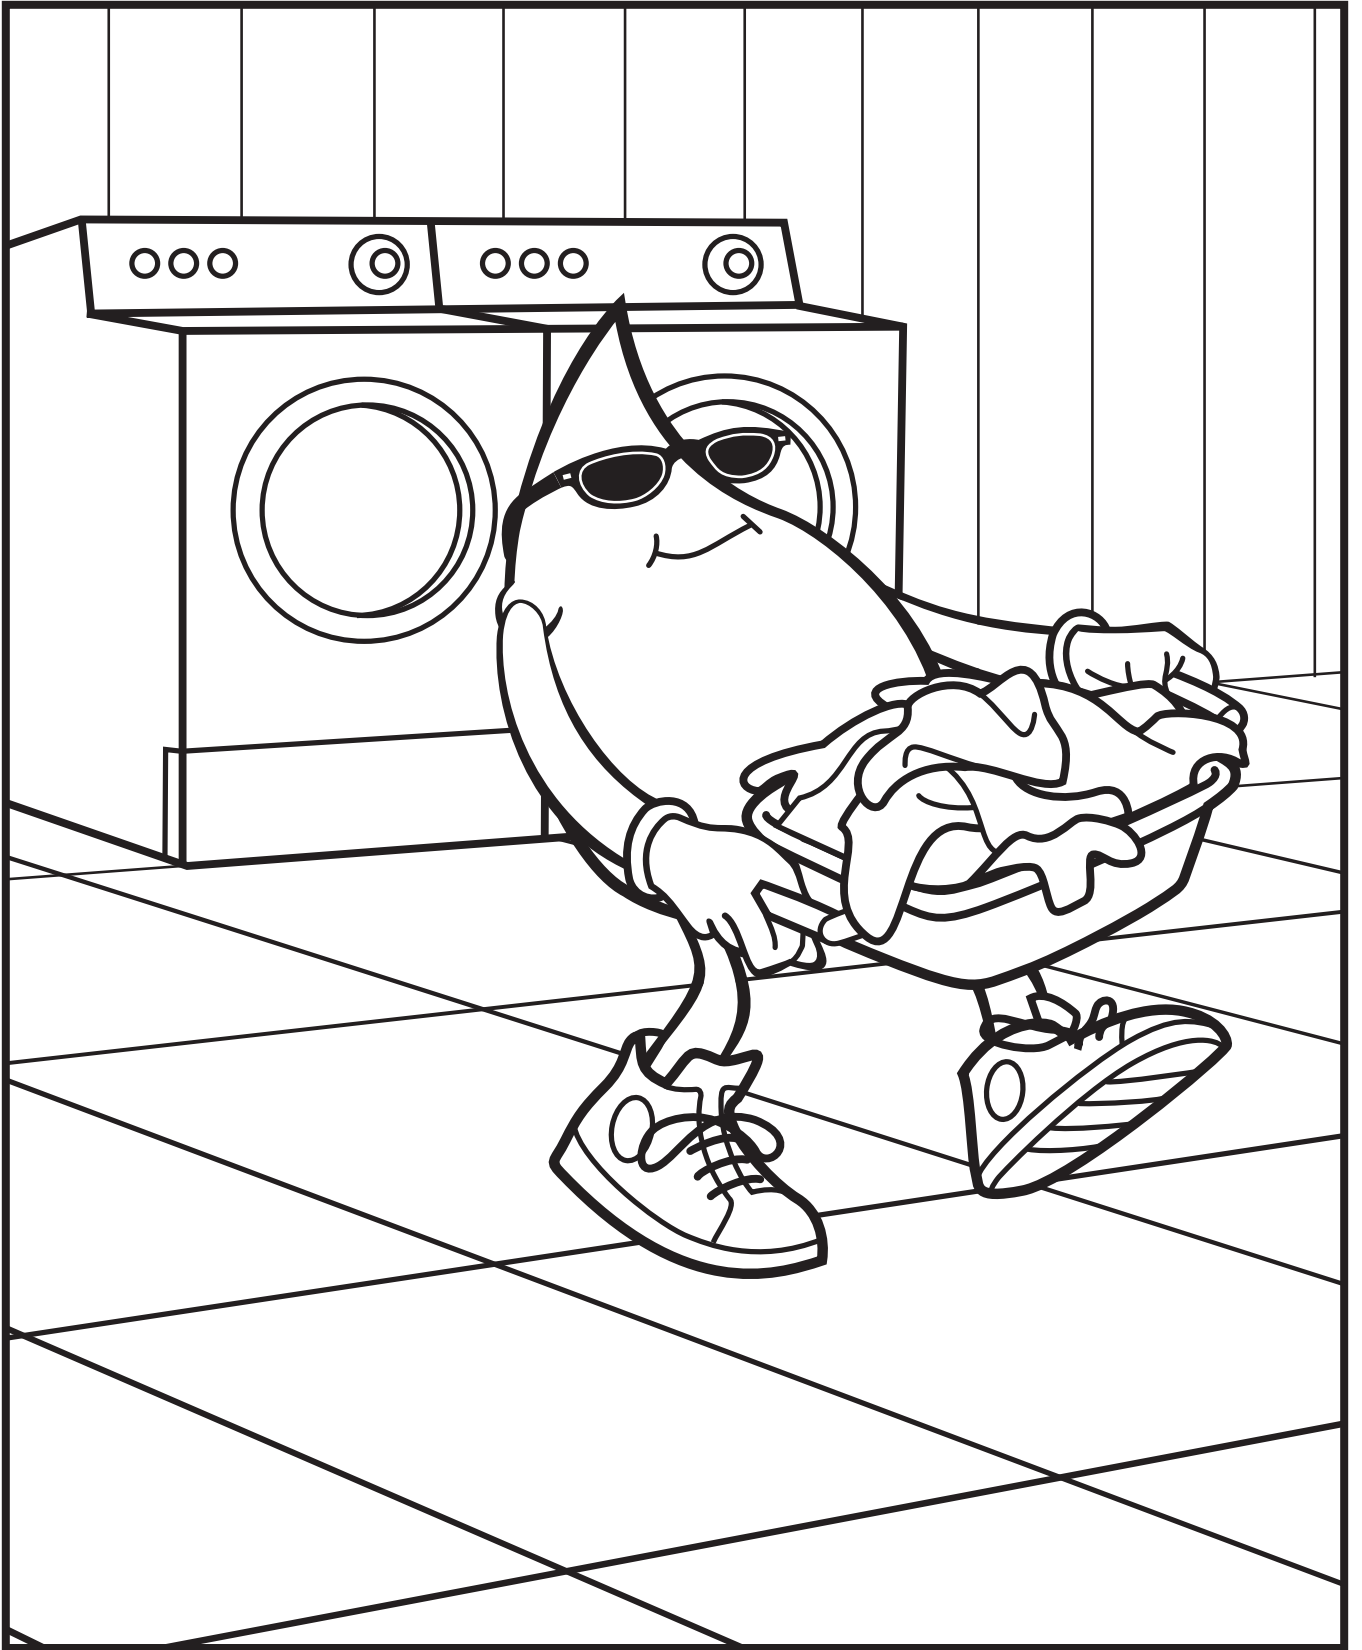

Dew saves lots of drops by watering early in the morning  
before it gets too hot!

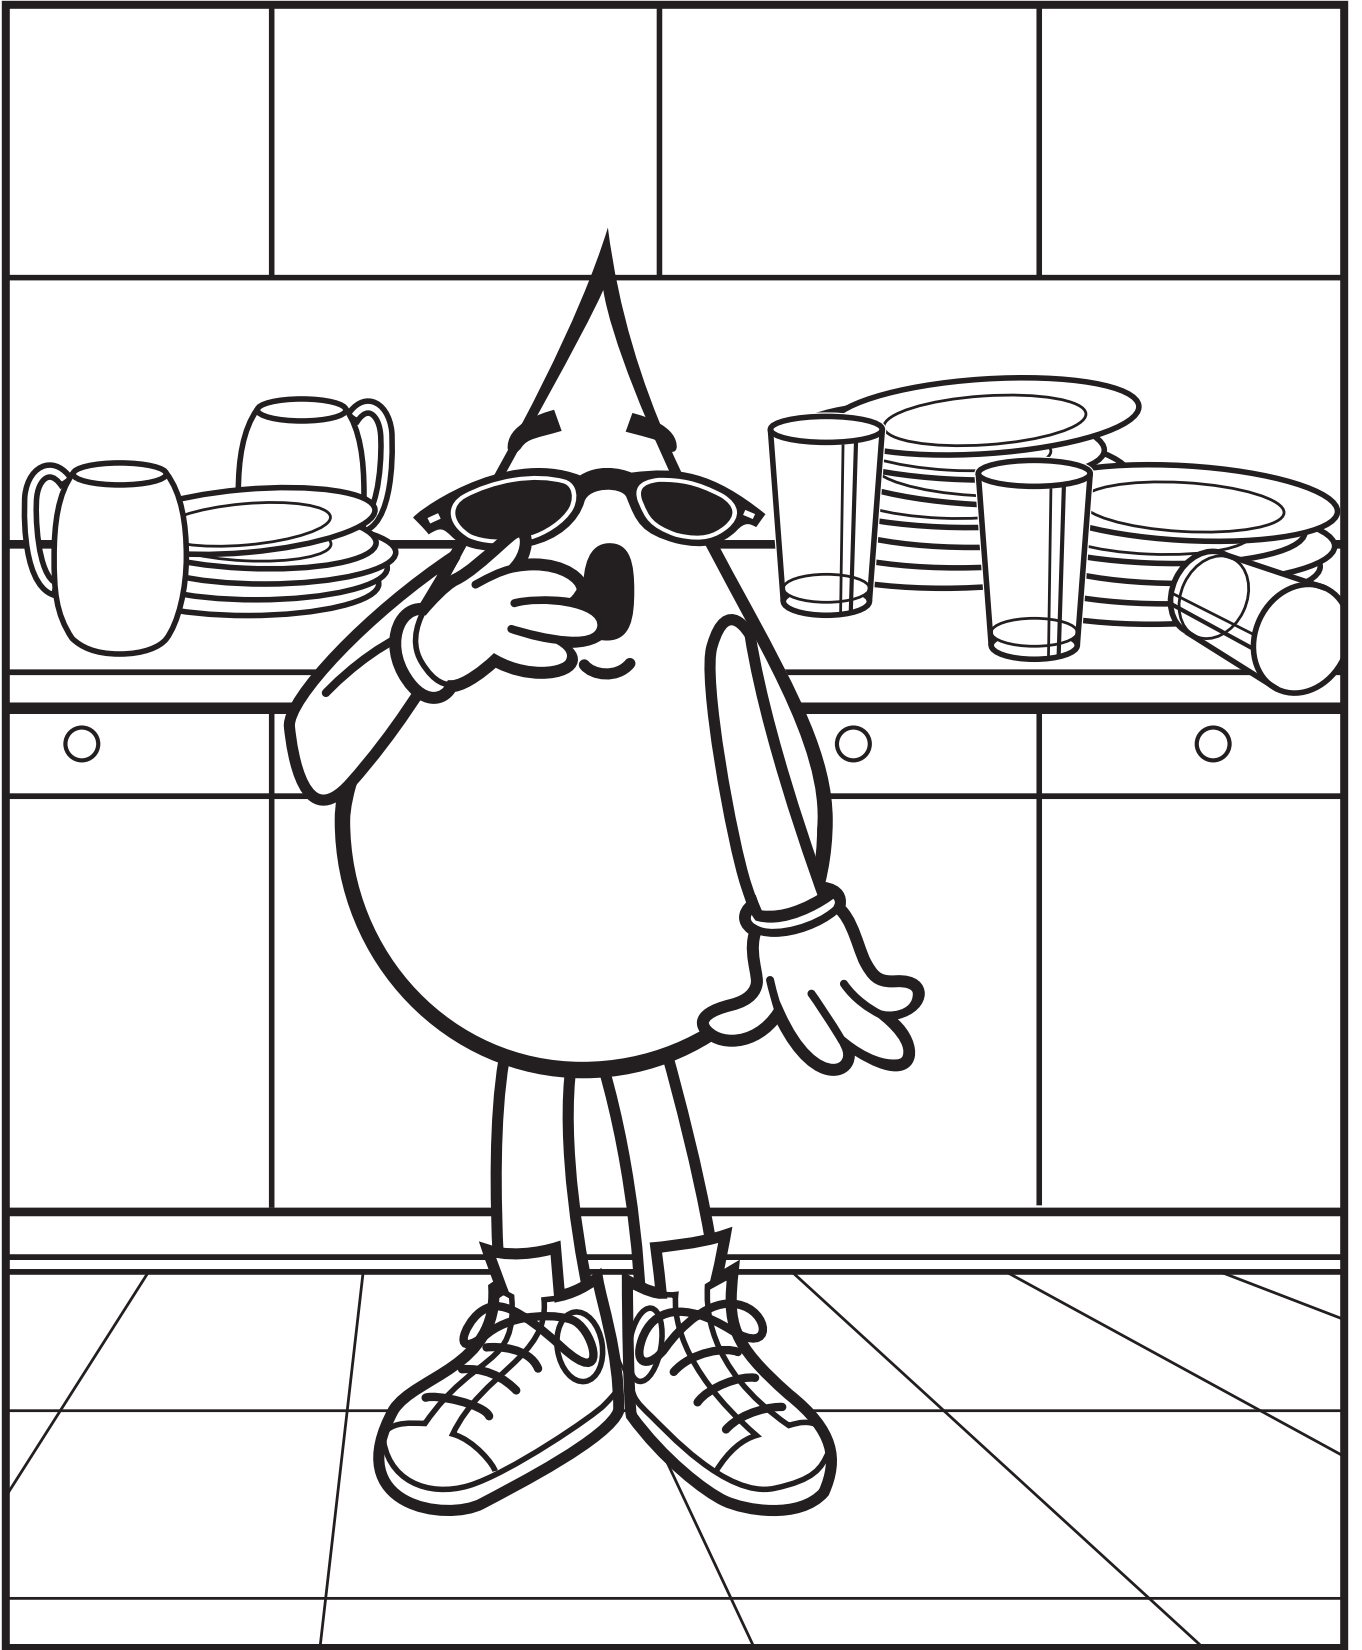

Dew fixes leaks right away. They waste a lot of water!

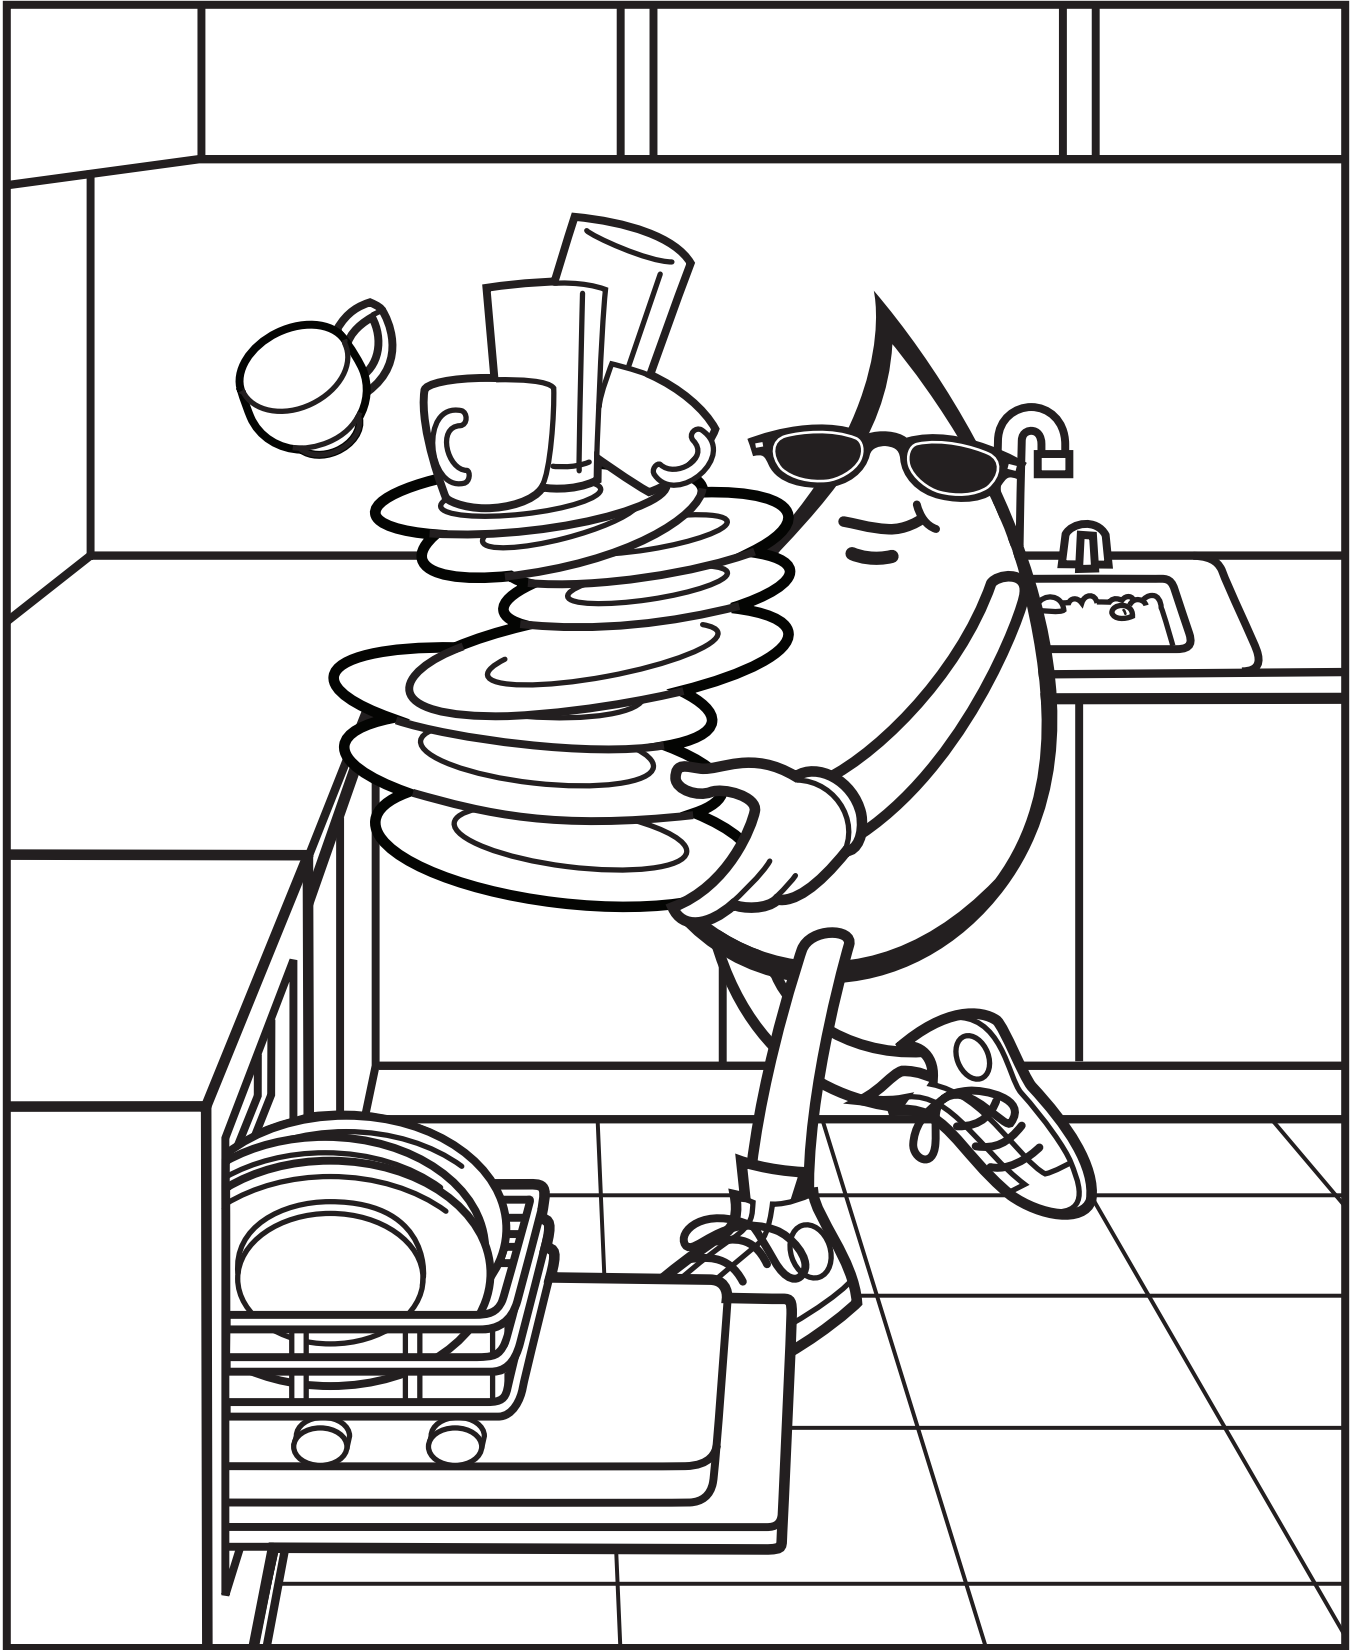

Dew saves water by sweeping instead of spraying the sidewalk.

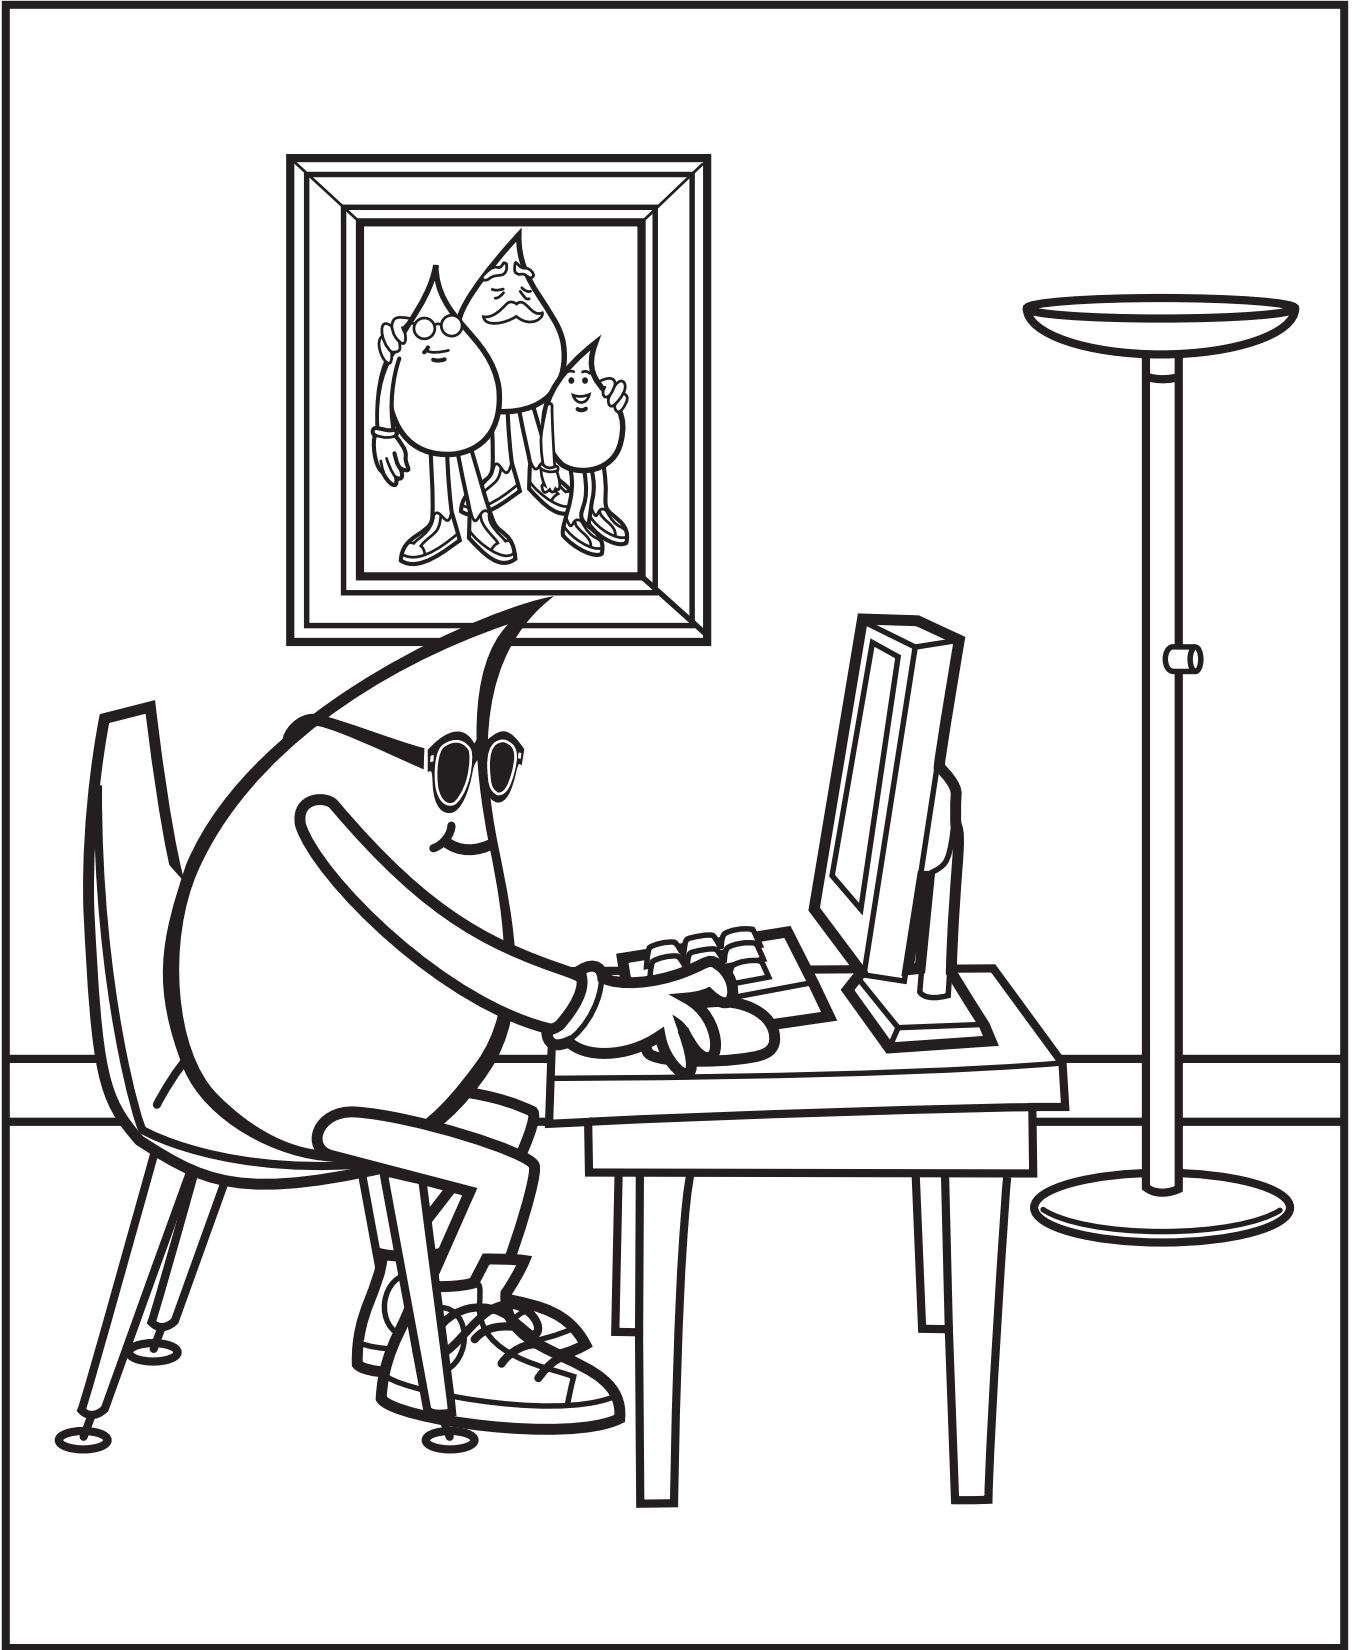

Dew only washes full loads of laundry to save water.

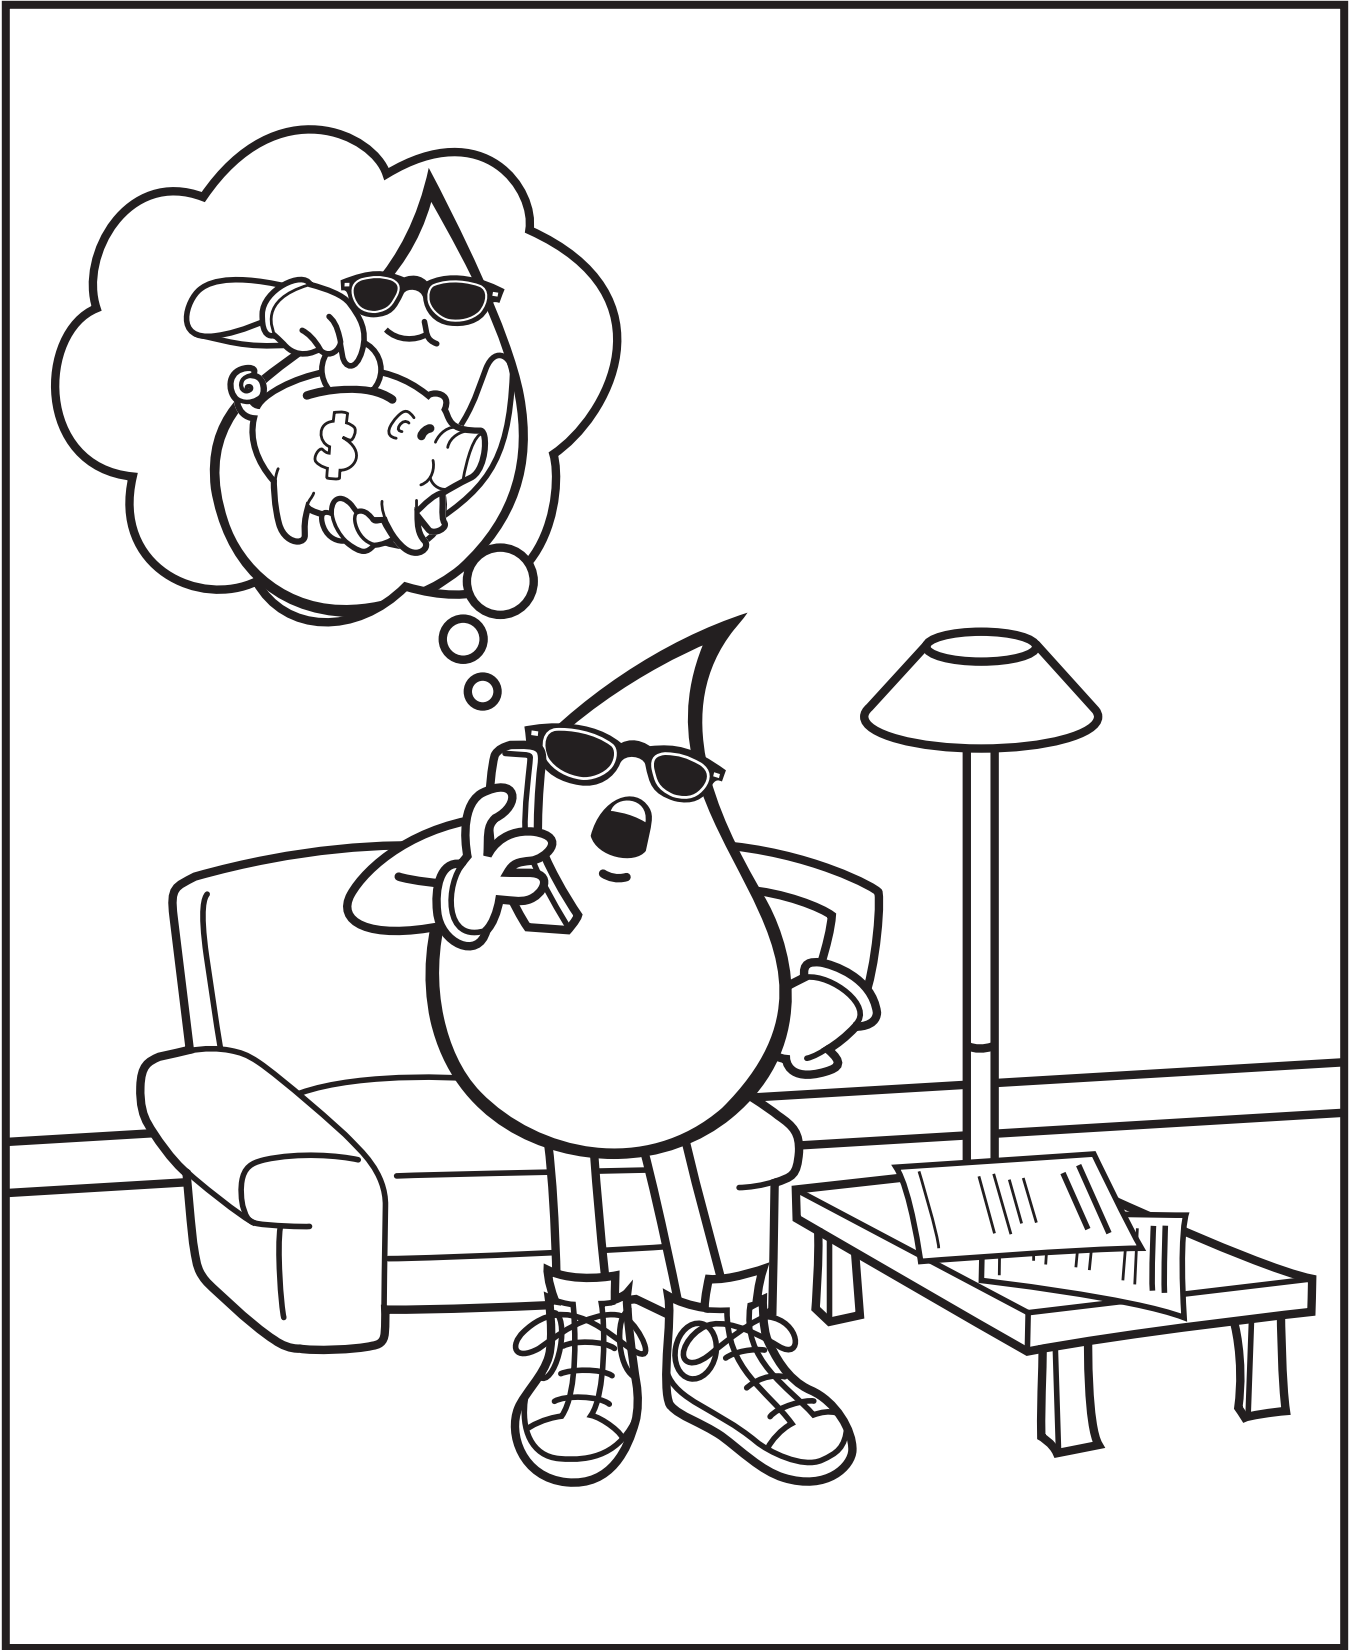

Dew forgot it was his turn to wash the dishes  
– time to get busy!

Doing full loads in the dishwasher saves water too!

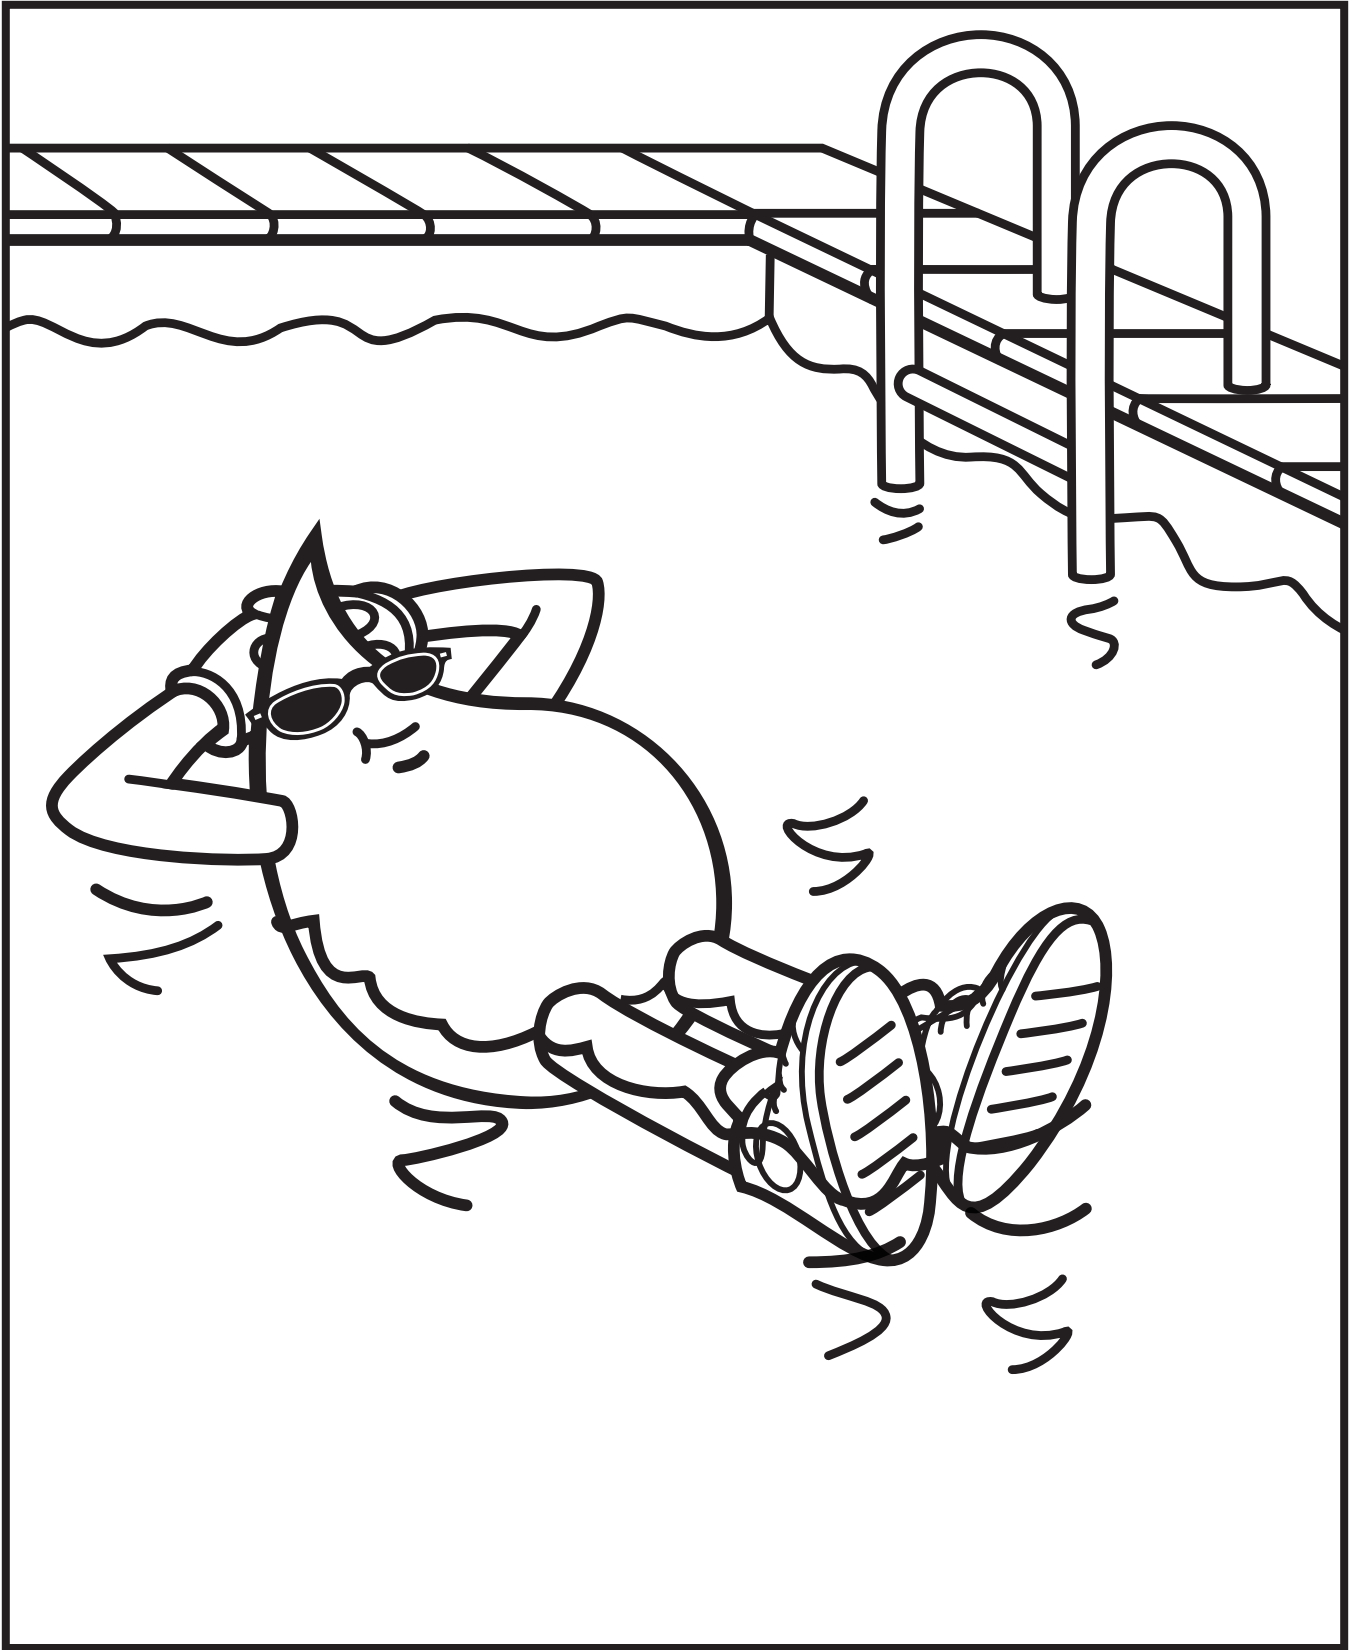

Dew looks on the Internet for more ways to save water!

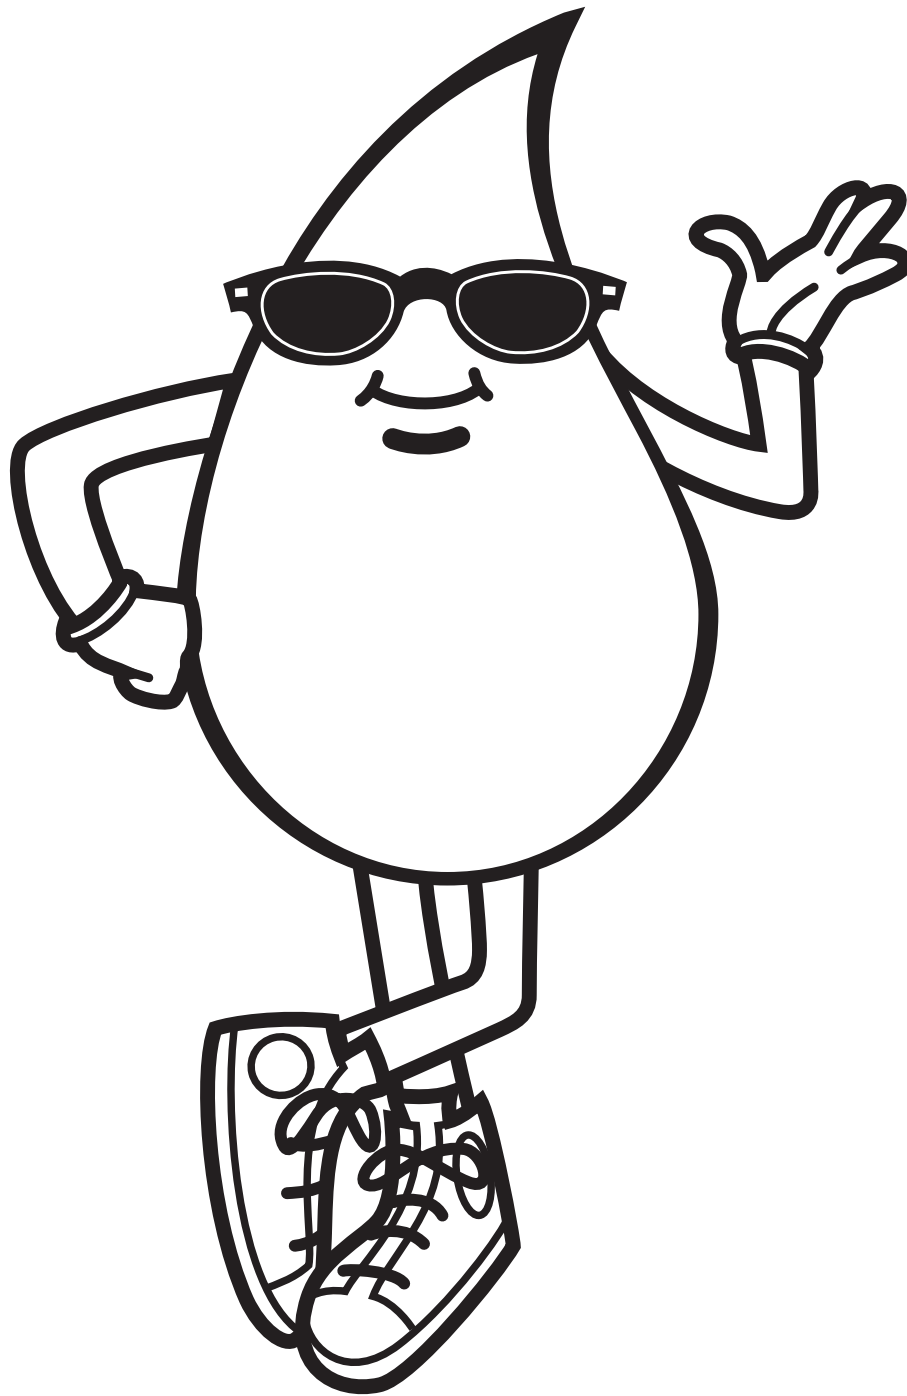

Dew loves to remind his friends that saving water also saves money.

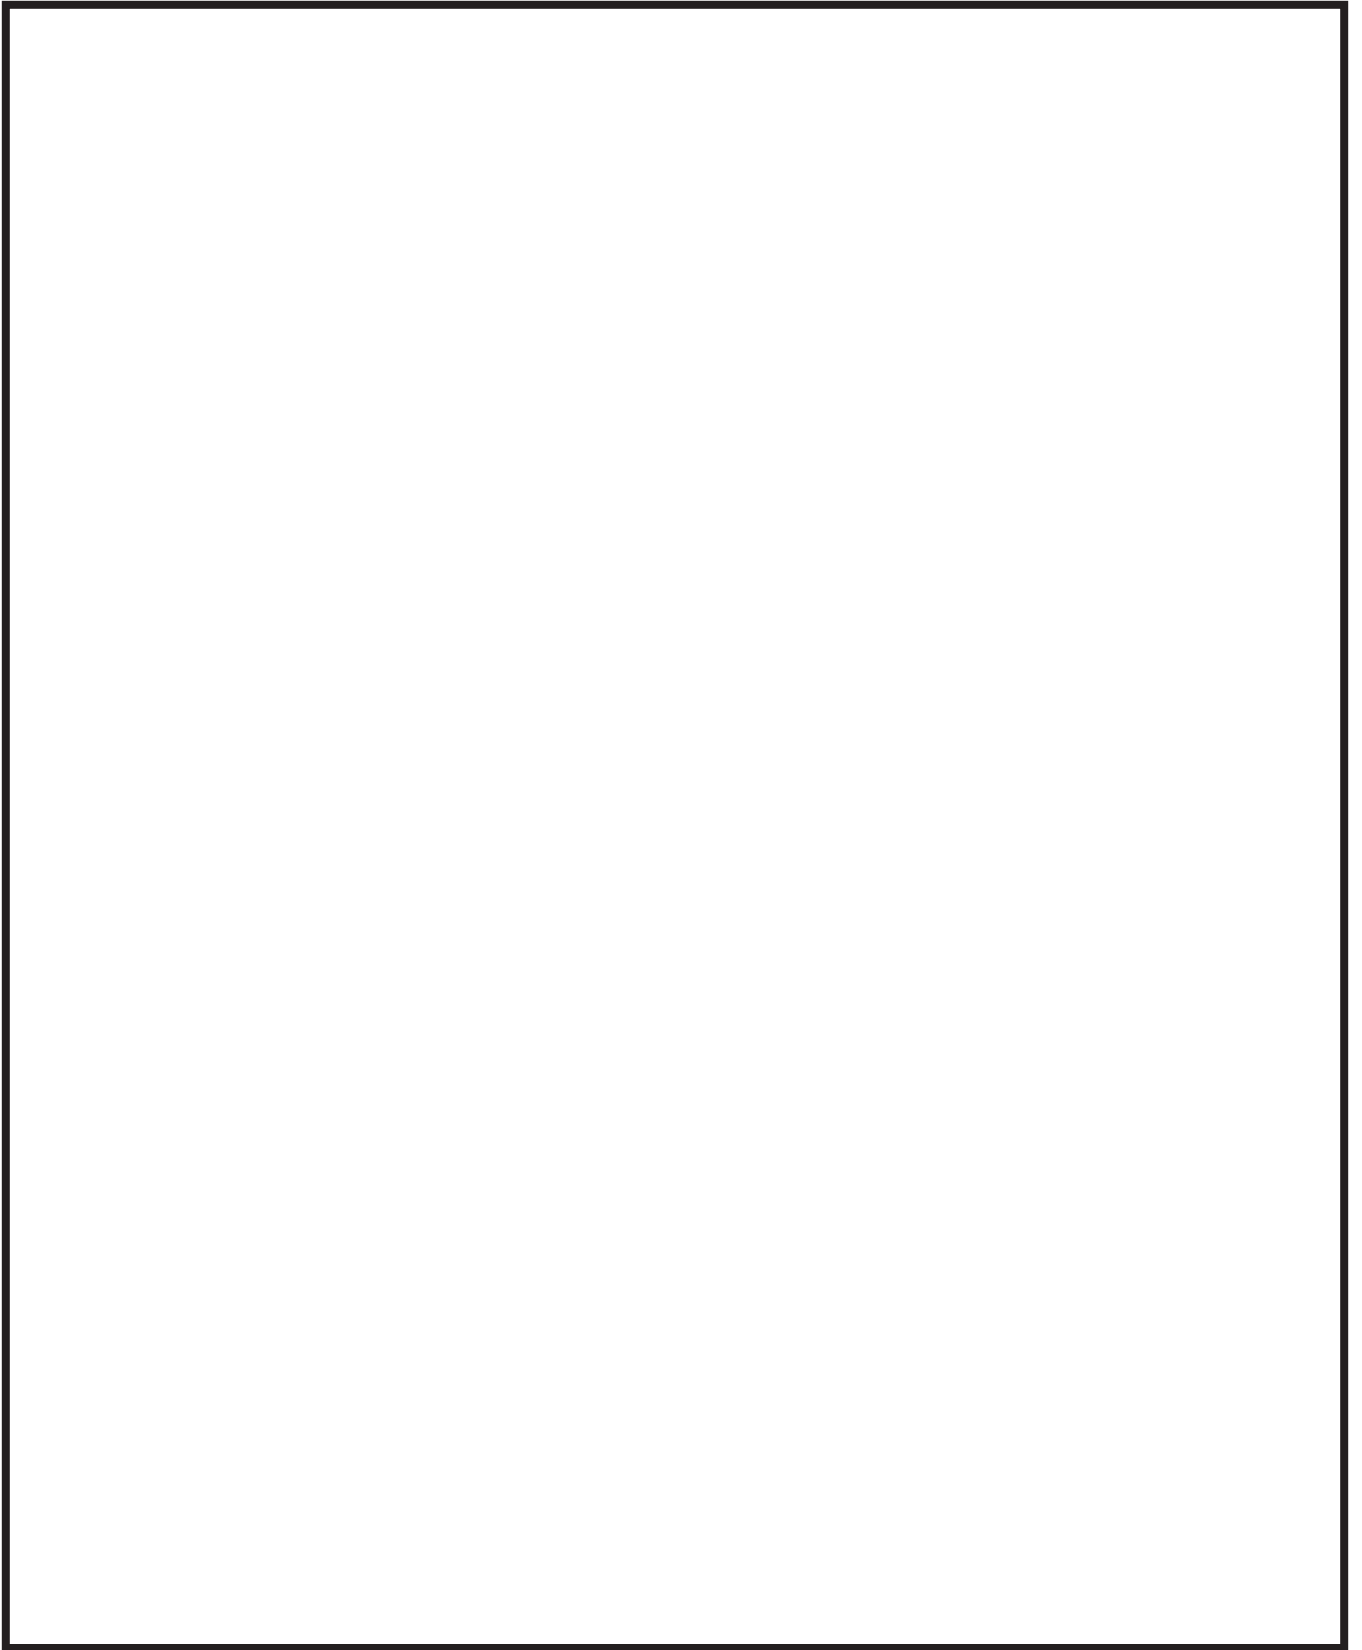

After his chores, Dew chills in the pool.

Dew says goodbye! And hopes you'll tell others  
how to save water.

Here's your chance to draw a picture showing how  
YOU would help Dew save water!
